

RECARO Automotive Seating

RECARO Performance Seat Platform

What's Different:

The all-new modular RECARO Performance Seat Platform (RPSP) addresses the needs of OEM customers for a broad range of performance segments. RECARO's RPSP emphasizes modularity and options for individualization.

Why it Matters:

The RPSP platform stays true to RECARO's world-renowned design and craftsmanship and also delivers cutting edge performance, comfort and ergonomic features to a broad array of vehicles.

The Details:

- Configurable global platform: Covering the whole performance seat range, from lightweight to premium performance and luxury segments.
- Outstanding riding performance: The anatomically-shaped seat structure and low H-point reacts to road feedback and results in superior riding performance.
- Superior design: The shape of the RECARO seats follow our design motto of "form follows human" and also deliver outstanding seat styling.
- Superior craftsmanship: RECARO seats have concave, body-shaped seat contours that are achieved by our expertise in hand-crafted manufacturing.
- Exceptional comfort: RECARO seats achieve advanced ergonomics and comfort functions such as tilt, height, fore and aft and recline. Additional comfort features include: adjustable side bolsters, heating and climate systems and optional extendable seat cushions.
