

RECARO Automotive Seating

RECARO Aftermarket RECARO Speed V

What's Different:

With the new Speed V, RECARO introduces its first drop-in seating kit solution* for AM vehicle owners. The Speed V features the new RECARO cushion victory design using advanced performance materials ranging from high-grade leather to sport cloth.

Why it Matters:

The truly distinctive Speed V was inspired by the classic RECARO racing shells, designed for firm and dynamic support during high-performance driving

The Details:

- Aftermarket and end-consumer knowledge: with over 111 years automotive experience and over 50 years of building high-quality, performance seats and racing shells each RECARO product features the core attributes of our DNA built-in: riding performance, craftsmanship, comfort and design.
- RECARO first kit solution option: this is a true bolt-in seat kit designed specifically for aftermarket.
- Attractive design and unique craftsmanship: premium leather with four fabric accents available (red, blue, yellow and cloud gray)
- Exceptional comfort: RECARO's proprietary integrated lumbar support and aggressive bolstering for great support during spirited driving.

*Kit solution implies all components that are needed to be a drop-in solution: seat, sliders and brackets. The Speed V kit components include Speed V seat, Speed V brackets and slider kit, these components are sold separately
